*Someone took me from my home
in 1973
And forced me many miles to roam
from Swampscott by the sea.
But when my friends found I was gone
from off the weathervane
Forthwith they searched and found me
and brought me home again.
I hope they guard me well this time
and ne'er more let me stray
For Swampscott's where I want to be
No other place — NO WAY!*

The Grasshopper —

BOARD OF SELECTMEN

DOUGLAS F. ALLEN, Chairman
ROBERT E. DONELAN ARTHUR J. PALLESCHI

To the Citizens of the Town of Swampscott:

Your Board of Selectmen is pleased to submit to their fellow citizens this report for the year ending December 31, 1973.

Police Chief, William J. Carlin, continues to perform effectively and with his help we have made every effort to maintain a full complement in the Department to reduce expensive overtime. With regret, it was necessary, following a public hearing, to discharge a police officer for improper conduct. While the Selectmen's action was upheld by Civil Service, the matter is still pending on appeal in court.

The Board of Selectmen was pleased to appoint a new Chief of the Fire Department — William R. Hyde. During the interim, following the retirement of Chief Walter M. Champion, Jr., Deputy Chief Carl J. Pagano served the Town well as Acting Chief.

Early in 1973, with the assistance of Attorney Thomas Driscoll, contracts were completed with each of the four groups of employees with whom the Selectmen must negotiate. Necessary appropriations and by-law amendments to support these contracts were accepted by the Town Meeting. Late in the year legislation was enacted

which, amongst other items, imposed requirements providing for binding arbitration for fire and police groups. The Board views this with extreme concern and will watch carefully for its effects on bargaining in 1974.

As representatives of the citizens of Swampscott, the Board of Selectmen have spent many hours working with various committees to aid them in their objectives. A number of meetings were held with the Ad Hoc Sewage Treatment Plant Committee and the Traffic Study Committee, appointed in 1973 by the Selectmen, working to solve the serious and perplexing problems facing each group.

Although the Board of Selectmen must operate with limited statutory authority, a number of diverse problems arise during the year. Applications were acted on for a new beer and wine license and a transfer of a package goods store license, provisions were made for the handling of the energy crisis to meet the needs of the Town and its citizens, and a vacancy on the Planning Board, due to death, was jointly filled by the appointment of Virginia E. Earle. The new sprinkler and alarm systems were completed in various Town buildings. Selectmen maintained a close watch on the developments for regional refuse disposal, and, to commemorate the loss of an outstanding Swampscott citizen, the General Chaisson Memorial Committee was established. Recognizing our obligation to our senior citizens, we were pleased to be able to expand their hot luncheons and to secure a free bus program from Star Market.

All of these activities, as well as those of the other Town groups, have meant an increasing work load for our able Town Counsel, Attorney Timothy J. Davern. For this reason, the Selectmen have sponsored an article for the 1974 warrant providing for an Assistant Town Counsel.

Two other individuals on whose shoulders must fall the varied functions of the Selectmen are our Clerk, Miss Katherine Donlon, and our Secretary, Joseph C. Sinatra. For their dedication we are indeed grateful.

No committee of part time laymen such as the Selectmen can function effectively without the wholehearted support that we have received from the Town Officials, employees, committees and citizens. For this continued cooperation we are extremely grateful.

ARTICLE 2. To hear and act on the reports of Town Officials, Boards, and Committees.

Sponsored by the Board of Selectmen.

VOTED ARTICLE 2. To accept the report of the Fire Detection and Alarm Committee as read, and that a committee be appointed to study the communications needs of the town with particular emphasis on those of the emergency services; the committee to consist of five members, including those members of the Fire Detection and Alarm Committee who wish to serve, the remainder to be appointed by the moderator; said committee to report back at the next annual town meeting. Unanimous.

To accept the report of the Solid Waste Disposal Committee as read.

The following Tribute to Douglas F. Allen was read by Robert L. McVie, on the Occasion of his resignation from the Swampscott Finance Committee on March 19, 1973 after 11 years of service.

Mr. Moderator, Ladies and Gentlemen:

I rise to a point of personal privilege and ask your indulgence for a minute or two while I pay tribute to a man, who by virtue of having been elected to the posi-

tion of Selectmen and subsequently confirmed as Chairman of that Board, has resigned from the Finance Committee.

Doug Allen's work on the Finance Committee covered a span of 11 years and for five of these years he carried the additional duties involved in being Chairman of that Committee.

I speak from a relatively brief tenure of four and a half years membership, and I can tell you that from my very first meeting and continuing right through tonight, I have been tremendously — almost overwhelmingly, impressed with the characteristics of this guy Allen.

First of all he has a very considerable sense of dedication — dedication to this Town where we all live, dedication to its governmental processes, dedication to making these processes work and work well.

Secondly, he has a great willingness to work — to spend the hours of time, and I mean this literally, necessary to study the underlying statutes, by-laws or what have you to determine the latitude and the limitations applicable to the action which the Town may take on any given issue. In other words, he does his homework and this is absolutely essential if one is to take a position on a controversial issue.

Third, he has a keen intellect and this is a very helpful ingredient when combined with willingness to work and a sense of dedication.

Finally, Doug Allen is a man who has the courage of his convictions. He is not afraid to take a public position on an issue even though he may well know in advance that the position will not be a popular one.

In bidding Doug a fond farewell from his service on the Finance Committee and wishing him Godspeed as he enters the equally thankless task of serving as a Selectman, I want to thank him on behalf of the Finance Committee, and more particularly on behalf of myself, for his help, for his friendship, for his usefulness to this Town. We would indeed have a better Town if more people like him were willing to enter public service.

Attest:
Swampscott Finance Committee,

Town Warrant

SPECIAL TOWN MEETING

Wednesday, April 4, 1973

Essex, ss.

To either of the Constables of the Town of Swampscott in said County and Commonwealth.

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify the inhabitants of the Town of Swampscott qualified to vote in elections and town affairs to assemble in the High School Auditorium in said Town of Swampscott, on Wednesday, the fourth day of April, 1973 at 7:45 P.M. then and there to act on the following articles, viz:

ARTICLE 1. To see if the Town will vote to amend the Swampscott Zoning By-Law and Zoning Map in the following respects:

By inserting in Article V a new Section 3 as follows:

Section 3. Non-Conforming Uses. Any building, part of a building, or land which at the time of the passage of this by-law is, under the previously existing by-law, being put to a non-conforming use may be:

1. Continued in that use except that if a non-conforming use of a premises or a structure, or a structure and premises in combination, is abandoned for twelve (12) consecutive months, the premises, structure, or the structure and premises in combination, shall not thereafter be used except in conformance with the regulations of the district in which it is located.

And add a new Paragraph 5 as follows:

Paragraph 5. Section 1 of this By-law shall not apply to any municipally owned land, building, part of a building, structure or facility used for municipal purposes, which at the time of the passage of this by-law was under the previously existing by-law, being put to a non-conforming use.

Sponsored by the Building Inspector.

ARTICLE 2. To see if the Town will vote to amend the Classification and Pay Scales of the Personnel Board By-Laws by changing the fixed salary amount presently paid to the Harbormaster, a "Not Classified" position so that it will then provide as follows:

	Starting Salary	Annual Increment	Maximum Salary
Harbormaster	\$1,500.00		\$1,500.00

and appropriate the necessary funds therefor, retroactive to January 1, 1973, or take any action relative thereto.

Sponsored by the Board of Selectmen.

ARTICLE 3. To see if the Town will vote to amend the Personnel Board By-Laws by adding to Section 15(a) the following paragraph:

The foregoing provisions shall also apply to employees of the Police Department under the same terms and conditions as contained therein, except that as to such employees the total number of days of such leave shall not exceed two (2) days per year.
or take any action relative thereto.
Sponsored by the Board of Selectmen.

ARTICLE 4. To see if the Town will vote to amend the Personnel Board By-Laws by adding to Section 9 — Sick Leave — a new paragraph, 11a, as follows:

SPECIAL TOWN MEETING

Wednesday, April 4, 1973

In accordance with the warrant the Town Meeting Members were called to order by the Moderator, Richard B. Johnson at 8:00 P.M., the necessary quorum being present. (165).

The warrant with the return thereon was read by the Town Clerk, Oliver W. Coughlin.

The list of Town Meeting Members present are recorded under the Adjourned Annual Town Meeting, Wednesday, April 4, 1973.

ARTICLE 1. To see if the Town will vote to amend the Swampscott Zoning By-Law and Zoning Map in the following respects:

By inserting in Article V a new Section 3 as follows:

Section 3. Non-Conforming Uses. Any building, part of a building, or land which at the time of the passage of this by-law is, under the previously existing by-law, being put to a non-conforming use may be:

1. Continued in that use except that if a non-conforming use of a premises or a structure, or a structure and premises in combination, is abandoned for twelve (12) consecutive months, the premises, structure, or the structure and premises in combination, shall not thereafter be used except in conformance with the regulations of the district in which it is located.

And add a new Paragraph 5 as follows:

Paragraph 5. Section 1 of this By-law shall not apply to any municipally owned land, building, part of a building, structure or facility used for municipal purposes, which at the time of the passage of this by-law was under the previously existing by-law, being put to a non-conforming use.

Sponsored by the Building Inspector.

VOTED ARTICLE 1. To accept the report of the Planning Board and adopt their recommendations as follows:

That the Town amend the Swampscott Zoning By-Law and Zoning Map in the following respects:

By inserting in Article V a new heading and paragraph 1. to Section 3 as follows:

Section 3. Non-Conforming Uses. Any building, part of a building, or land which at the time of the passage of this by-law is, under the previous existing by-law, being put to a non-conforming use may be:

1. TOWN ACCOUNTANT

KEITH A. CALLAHAN, Town Accountant

This year's town report contains an abbreviated Town Accountant's report.

The statutes require the town accountant to prepare, and the selectmen to publish, a town accountant's report following the close of the financial year. The financial year ends June 30, 1974. As soon after the close of the financial year as the report is complete, it will be available for examination by all interested parties. Present plans call for publishing the report for the year ending June 30, 1974, in the 1974 Town Report. I would also like to call your attention to another change in the law that requires the town accountant to prepare the budgetary data used in the finance committee's report.

This interim report contains a balance sheet of December 31, 1973 and a debt statement as of December 31, 1973.

BOARD OF ASSESSORS

ERNEST MANCHIN, Chairman

GORDON S. BOREK, Secretary

ANTHONY F. PIERRE

The Board of Assessors submits its annual report to our fellow townspeople for the year 1973.

After substantial increases in the annual tax rates for the past five years, ranging from \$4.50 to \$8.50, it is a relief to record that the increase for this year is only \$1.00. Two factors contributed to the small increase in the tax rate, and without them, the increase would have been nearer to \$7.00 instead of \$1.00.

A total of \$570,000. was available from two sources. The first source, Federal Revenue Sharing, furnished the town \$345,000. What we will receive in the future from this source may be higher or lower. The second source which made \$225,000. available came to us by the action of the Vinnin Square Developers when they agreed to assume the expense of covering the Hawthorne Brook.

Although the dollar value for statutory exemptions, over which this Board has no control, is \$119,604. and slightly lower than last year, our estimation is that the total payments will increase. There was a total of 464 who qualified for the exemption broken down as follows: 191 Elderly persons, 19 Widows, 229 Veterans, 21 Indigent Persons, and 4 Blind Persons.

Despite the loss of the values from the New Ocean House, Chick Estate, other small properties, and Household Personal Property tax, which was eliminated by law, the total valuation this year at \$106,584,000., is \$3,369,700. over the same figure for the year 1966.

The Board receives many queries concerning the cost values of the building permits printed in the press. The figures should not be taken as "instant" assessed value. The reasons for this are, that the Assessors can use only one day each year for assessing property and that is January 1. This means that the full assessed value on some properties may not be realized for nearly a year. Construction in some cases may be delayed for more than a year after the permit is secured. Then, of course, the cost figures in the permits are the current figures for the year but to maintain equalization of assessments of properties, the assessors must use the 1966 valuations.

1973 TOWN REPORT

The Board of Assessors submit all figures used to determine the tax rate for 1973 at \$64.50 per thousand:

Beaumont Terrace
2 new hydrants installed

The new Standpipe with a capacity of 3.5 million gallons and appurtenances was put into operation in December, 1973. This provides greater volume and pressure in the higher elevations of the Town. Bids will be received by the Board of Public Works to raze the old standpipe which had a capacity of approximately 1 million gallons.

A contract will be awarded for the construction and installation of a booster pump at New Ocean Street. This system was designed by Fay, Spofford & Thorndike, Inc., Engineers, Boston, Massachusetts, in close cooperation with the Board of Public Works.

PARKS:

The Public Works Department is responsible for the maintenance of all parks and malls in the Town.

In addition, tot playground equipment was installed at the various parks.

The Public Works Department assisted in the demolition of the Little League Building which was destroyed by fire and will assist in the construction of the new building.

New softball diamonds were constructed at various parks.

A program of removing Dutch Elm diseased trees was carried out during the year as well as spraying for Oak Leaf Skeletonizer.

A tree planting program was continued.

CEMETERY:

Additional burial lots were established at the Cemetery. Also, construction of a new road for access to the new area was completed. The use of leaf mulch, collected from trees throughout the Town, has proven to be a savings in the purchase of top soil for the department. A large quantity of mulch was used in developing the new section of the cemetery.

ENGINEERING: DUTIES PERFORMED BY THE ENGINEERING DIVISION:

Design and inspection of all sanitary sewers, storm drains and water main extensions; cemetery expansion; layout and surface grading of streets and sidewalks; general land surveys of Town properties; drafting of plans; preparation of estimates both cost and quantity for general Public Works projects; drawing of construction contracts and specifications; furnishing information from Town Records for subdivisions; keeping Assessors Plates up-to-date. All Storm Damage Projects were estimated and inspected by the Engineering Division in order that Federal Funds could be allocated to the Town.

In addition the Engineering Division performed land surveys and made up plans of the Chick Estate, and a portion of the Tedesco property at the Shaw School for the Conservation Commission.

TOPICS — Traffic Operations Program to Improve Capacity and Safety:

The Town entered into a contract with the Federal Government in connection with a 100% Federally (no Town money) Funded Program known as TOPICS.

Projects funded by TOPICS which are 100% complete are:

Railroad abutments removed and landscaped on Bradlee Avenue and Walker Road, with new sidewalks.

Islands constructed at the intersection of Atlantic Avenue and Shepard Avenue.

Intersection widening and traffic signal improvements of Danvers Road and Essex Street.

The Board of Public Works in cooperation with the Massachusetts Department of Public Works and Tippetts-Abbett-McCarthy-Stratton, Engineers and Architects, is currently reviewing preliminary plans for additional TOPICS projects in various sections of Town.

STORM DAMAGE PROJECTS—Federally Funded and 100% Complete:

Fish House: repairs

Kings Beach: Grass and sod replaced; seawall refurbished

Stacey Brook: culvert outlet repaired

Blaney Beach: grouting work

Town Pier: repaired

Fishermen's Beach: trash and debris cleaned up

Hawthorne Brook: Preston Beach outfall structure repaired.

The above projects were inspected by the Federal Highway Administration,

U.S. Army Corps of Engineers, and the Massachusetts Department of Public Works.

Also, a Summary of Documentation in support of the amount claimed which was compiled by the Board of Public Works' Principal Clerk was reviewed by the Office of Emergency Preparedness for Eligible Disaster Work and was accepted for payment.

MISCELLANEOUS:

The repair of Hawthorne Brook from Essex Street to Humphrey Street will get underway now that the Board of Public Works has finally received its Chapter 91 license from the State Department of Public Works, Division of Waterways. Construction will be undertaken by the developers of the Vinnin Square area at a cost of approximately \$500,000. of which no Town funds will be involved. This has been accomplished by the diligent efforts of the Board of Public Works and the cooperation of the developers which include: Summit Estates, 400 Realty, Stop & Shop (Pine Realty) and Towne Lyne Realty.

Construction of an addition to the Highway Garage on Paradise Road by Public Works employees was begun and presently is 85 % complete.

PROMOTION:

Thomas Douglas was appointed Public Works Foreman after successfully passing the Civil Service examination.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the members of the Swampscott School Committee and the citizens of Swampscott:

I am pleased to submit my annual report as Superintendent of the Swampscott Public Schools.

The year 1973 brought many changes and events. As space does not permit to enumerate them all here, we mention the most important in this report.

PROFESSIONAL STAFF

The quality of education that Swampscott provides depends, for the most part, on the excellence of the teaching staff. These professional personnel are prepared for its diversified and complex tasks through continuous study, experimentation, and in-service growth. Swampscott is indeed fortunate in having an exceptionally competent and dedicated staff.

We extend our sincerest appreciation and a deep sense of gratitude to the many fine, able, and dedicated staff members who have retired this past year from the Swampscott School Department. These people have contributed much to the educational growth and development of many young people of our community. They have provided a first-rate public service and will be missed by all Swampscott residents.

The following additions and changes were made on the staff this past year.

TEACHING PERSONNEL

CURRICULAR PROGRAMS

For the most part, 1973 was a year of consolidation and evaluation with respect to curriculum development. Although some new programs were introduced in several subject areas, the main emphasis was on the improvement, refinement, and review of the important curricular changes which have been undertaken within the last several years. It should be noted that the purpose of these changes has been to provide students, particularly those at the secondary level, with a wider choice of stimulating and relevant courses, and an opportunity to examine subjects in greater depth, through the use of a variety of up-to-date approaches and materials.

At the elementary level the use of several new programs in English, mathematics, science, and social studies is gradually being extended following a period of

trial and examination. These include a program entitled **Man: A Course of Study**, which combines elements drawn from both science and social studies; a reading program for younger pupils which makes use of a teaching machine; the SCIS Primary Science Program; the Houghton-Mifflin Mathematics Program; and the **Family of Man** social studies program.

The introduction of an elementary school intramural athletic program has met with the enthusiastic participation of pupils and the endorsement of parents. In the area of music, attention should be drawn to the continued interest shown by many pupils in the program involving the playing of string instruments: a substantial proportion of those pupils who began with the program several years ago have continued with it from year to year.

At the junior high school particular stress continues to be placed on the development of basic English and Mathematics skills. In addition, however, students are being offered a greater variety of course selections, especially in English, social studies, science, and mathematics. The available range of choice broadens as students progress from grade seven to grade nine, commensurate with their growing ability to discriminate among the options presented to them. A new program has been instituted which provides both boys and girls with an introduction to the techniques used in ceramics, studio art, woodworking, and metalworking. The intention is to stimulate and broaden interest in the visual arts.

For the first time, junior high students have been provided with an opportunity for orientation to business practices and procedures in the form of two new courses.

The junior high athletic program continues to emphasize intramural competition, a policy which encourages maximum pupil participation in sports activities. At the same time, note should be made of the fact that the school's football, basketball, and hockey teams all won championships in the Junior High Northeast Conference.

At the high school the English Department has had an enthusiastic student response to a new elective program of semester-length courses. These have been divided into two levels: "extra-challenge" courses (for college-bound students) and "challenge" courses (for students who do not have higher education as an immediate goal). In the teaching of social studies a greater emphasis has been placed on the acquisition of historical, sociological, and economic concepts, as opposed to the accumulation of factual information.

In addition to providing intensive vocational training for students who plan to go directly into employment, the high school Business Department is also stressing vocational skills, including typing, for non-business oriented students. And in the area of science, the climatology and marine science laboratory activities have been revised. Efforts are being made to exploit the natural resources of the area in and around Swampscott for learning purposes. The Science Department's excellent relations with the Peabody Museum of Salem, which enables the Swampscott schools to draw on the talents of the museum's specialists, facilitates this effort to make effective educational use of local natural phenomena.

A number of programs have been expanded — and some new programs added — in the high school physical education curriculum. These include such activities as soccer, indoor track, weight lifting, tumbling and gymnastics, and modern dance.

SCHOOL BUILDINGS

The significant change in the status of the town's school buildings in 1973 was brought about by the closing of St. John's Parochial School. In order to absorb into the public school system the pupils who were affected by the closing, it was necessary to lease the former parochial school, which has become a part of the nearby Hadley School and now houses kindergarten and first grade pupils.

The closing of St. John's also affected the Clarke School, which is now attended by a large number of the former parochial school pupils. The overcrowding at the Clarke was resolved by a decision to bus two sixth grade classes from the Clarke to the Hadley, where the necessary space was available. This busing program has been in effect since last September and, although it is not an optimum solution to the problem, it appears to be working smoothly.

At the junior high school, about fifty more students have been added to an already uncomfortably large enrollment. As a consequence, it has been necessary to utilize the basement shops and art studios as homerooms, and to reorganize the school schedule, which is now based on a six-day cycle.

At the high school, the reorganization of guidance services necessitated the renovation of the second-floor teachers' rooms for the use of the guidance staff. This move coincided with the relocation of the teachers' lounge in the former guidance office area. In addition, technical drawing and electronics exchanged locations.

SERVICES

Open Campus. Several revisions have been made in the high school Open Campus program this year. These include a reduction in the number of "X" periods each cycle, a strengthening of student and teacher commitment to the proper utilization of each "X" period, and a greater use of supervised study for students who find it difficult to cope with the responsibility that must be exercised by participants in the program.

The Open Campus program continues to expose students to a broad variety of academic and non-academic learning experiences in the high school and in the community. Among other activities, many students are involved in the Swampscott elementary schools as tutors or aides. It should be noted in particular that students enrolled in Child Development courses combine learning with practical assistance by working with children in nurseries and in the elementary schools.

The Open Campus Evaluation and Development Committee is currently at work on a comprehensive evaluation of the program which should result in some important decisions affecting its future direction and emphasis in Swampscott.

Pupil Personnel Services. The state legislature's enactment of Chapter 766 during 1973 will require some major changes in the ways in which Swampscott and other communities deal with the education of children who have special learning needs or problems. In general, the impact of the new law is to make each community fully responsible for the provision of the services required by such children.

Fortunately, the Swampscott Public Schools have already laid some of the essential groundwork for the implementation of the law. The Department of Pupil Personnel Services, working in cooperation with the school principals, has been involved in the

development at each school of resource centers which are intended to provide services to children with special needs. Learning disability teachers, reading teachers, and classroom instructors will work together to identify and define pupil problems and to prescribe means of dealing with them. In this connection it must be pointed out that the school system's ability to provide special services has been enhanced as a result of changes in the Greater Lynn Mental Health organization. These changes have given the Swampscott schools the full-time assistance of a psychologist, Dr. Stanley Glick, who is presently providing consultation, diagnostic, and treatment services to staff and students.

Public Law 766 requires that the public schools devise means of meeting the needs not only of the relatively substantial number of children who have learning or emotional problems, but also of those few children in each community who are severely retarded, blind, deaf, aphasic, or physically handicapped. Because it is beyond the human or financial resources of any single community to provide the particular services required to cope with each of these disabilities, Swampscott has joined with several neighboring school districts to form a "Special Education Consortium." The Consortium is now in the process of organization. One of its first priorities will be the pursuit of federal or state grants to fund proposed programs dealing with learning disabilities, the problems of pre-school children, and the in-service training of teachers and specialists.

During 1973 the Department of Pupil Personnel Services has engaged in a joint venture with Marblehead authorities to create a realistic training opportunity in food services for retarded high school-age students. A small restaurant, located in space provided at Marblehead High School, is already in operation, and an adjoining area is being prepared as a "supermarket." This undertaking, which has proven popular with students and staff, is an indication of the benefits that can be derived from regional cooperation.

A major change has taken place in the organization of guidance services at the high school, following a review of the guidance program's effectiveness and a survey of student opinion. While the services of the entire guidance staff will continue to be available to students, each counselor has been assigned a special role. One will continue to concentrate on college placement. A second will function in the newly created position of Career Development Counselor, with responsibility for career counseling, the dissemination of occupational information, interest and aptitude testing, job placement, and the coordination of the modified work-study program. Finally, a third staff member will serve in another new position, that of Counseling Consultant. The Counseling Consultant will concentrate on the task of helping students to resolve personal problems of any kind, and when necessary will consult with parents and teachers, conduct case conferences, and make appropriate referrals.

THE ENERGY CRISIS

An account of the year's activities would not be complete without mention of the reaction of the Swampscott Public Schools to the energy crisis, which overtook us in the final months of 1973. Under the direction of the School Committee the school administration, advised and supported by principals, teachers, custodians, and students, has put into effect several measures which are designed to minimize fuel consumption. These include the following:

- (a) reduction of thermostats to 68 degrees during the school day and to 60 degrees after school, on weekends, and during holidays

- (b) consolidation of evening programs at the Shaw Junior High School (this is the only school where the temperature will be kept at 68 degrees during the evening)
- (c) inspection of building heating/ventilating procedures and equipment by qualified consultants
- (d) radiators in corridors and stairwells have been turned off
- (e) staff and students have been urged to cooperate — and have responded energetically — by turning off lights when not needed and by practicing other power economies.

The school system's efforts to reduce fuel consumption appear to be meeting with success. An examination of fuel oil usage for the month of December, 1973 — the first full month of application of our economy measures — shows a reduction of twenty-five percent below the December average for the previous five-year period. This is particularly encouraging in view of the fuel allocations imposed by the federal government to take effect in 1974: these allocations will provide the schools with eighty-five percent of the fuel they received the previous year (1973). The fuel savings record compiled by the schools during December indicate that we should be able to meet the government's requirements and get through the winter without having to resort to more extreme economy measures.

In conclusion, as I have indicated in the past, "We are constantly searching for ways of improving the educational environment of our children through every available means at our disposal. We would be most happy to accept your suggestions in helping us reach our goal — the best possible education Swampscott can afford."

Respectfully submitted,

CHRIS G. PATRINOS, Ed.D.

Superintendent of Schools

POLICE DEPARTMENT

WILLIAM J. CARLIN, Chief

During the year new personnel were added to the department to bring the complement to authorized strength.

Reserve Officers George M. Gately, Joseph I. Cordes III, John E. Agurkis, and Charles E. Werner were appointed permanent patrolmen. These appointments were made by the Board of Selectmen from certified Civil Service lists.

Patrolman Paul A. Sherry was appointed Lieutenant on January 26, 1973.

Patrolman Mark P. Hayward, Michael Kehoe, Paul L. DesRoches and William J. Ray attended and were graduated from the Massachusetts State Police Academy.

Patrolman Dennis G. Curley resigned to accept a position with the Lynn Police Department.

Patrolman Anthony D'Agnese attended and graduated from the Attorney General's Drug Abuse School.

Chief William J. Carlin attended and graduated from Municipal Police Administration and Management School conducted by the Federal Bureau of Investigation.

AUXILIARY POLICE

Under the direction and training of Auxiliary Chief Harold J. Keating, the Auxiliary Police Department has been active during the year in assisting the regular department. This force is ready for immediate service in any emergency.

TRAINING AND EDUCATION

Special firearms training under the direction of Lieutenant Paul A. Sherry is being maintained.

Eleven patrolmen attended and completed courses in standard and advanced First Aid.

Under the direction of Lieutenant Peter J. Cassidy the department continues to expand the School Safety Education program.

POLICE STATION ADDITION

The construction of the new addition to the Police Station is progressing satisfactorily and should be ready for occupancy shortly. This addition will provide much needed space and make for a more efficient operation of the department.

RECOMMENDATIONS

I recommend that the town purchase two new automobiles to be used as patrol cars.

APPRECIATION

I wish to express my sincere appreciation to the Board of Selectmen, to the members of my department, to the Women Traffic Supervisors, to the members of the Auxiliary Police Department, to all Town Departments and to all others who have cooperated with me during the year.

FIRE DEPARTMENT

WILLIAM R. HYDE, Chief

During the year 1973, this department answered a total of 837 calls. Of these calls 41 were building fires, 26 were traffic accidents, 13 were medical aids. The remainder of these calls included lockouts, false alarms, mutual aid runs, details and etc. We inspected and issued 63 permits for oil burners.

APPARATUS

The apparatus of this department is in good to fair condition. With two of our pumpers reaching the twenty year age mark, we are at present looking into the possibilities of purchasing new pumpers. I am grateful to the citizens of this town for the cooperation they have extended to our former Chief Walter M. Champion Jr., for providing us with our equipment, and look forward to that same cooperation during the future years.

FIRE DRILLS AND INSPECTIONS

Fire drills were conducted at all schools during the year. These drills were conducted in an orderly and efficient manner and credit is deserved by the faculty who supervise these students.

All mercantile, public buildings, business buildings, and other buildings permitted by law were inspected. Inspection of property is a valuable branch of the fire service, and we of the fire service are more than happy to do our part in this most important work. Citizens of Swampscott are urged to contact their fire department for suggestions on fire prevention and fire safety. The number to call is 595-4050.

FIRE ALARM SYSTEM

During the year 1973, the fire alarm system was accorded regular maintenance and necessary repairs were performed to help keep it in running condition. We are at present looking into the possibilities of replacing our present fire alarm system with a new and more modern system.

PERSONNEL

Our former Chief Walter M. Champion, Jr. retired January 11, 1973 after many devoted years to the Town of Swampscott. On that date of retirement Deputy Chief Carl J. Pagano was appointed to acting chief, and Captain John J. Mattera was appointed to Acting Deputy Chief. On April 29, 1973, Captain Joseph Braccio was appointed to Acting Deputy Chief, and John J. Mattera returned to the rank of Captain.

During the year 1973 the following men were appointed acting captains: John R. Maitland was appointed January 15, 1973, and Phillip M. Whitten was appointed April 29, 1973. An examination for the rank of captain on May 18, 1973 was held and the following men were appointed permanent captains on December 21, 1973: Michael J. Dilisio, James F. Samms, and Frank G. Williams, Jr.

An examination was held on July 18, 1973 to fill the vacancy for chief. Captain William R. Hyde was appointed Chief of the fire department on November 2,

1973 and on that date Acting Chief Carl J. Pagano reverted back to Deputy Chief, and Acting Deputy Chief Joseph Braccio back to the rank of captain. On October 21, 1973 Acting Captain Phillip M. Whitten reverted back to private. Robert J. Pierro was appointed department mechanic on October 21, 1973. Jeffrey E. Rossman was appointed a permanent firefighter April 20, 1973. John L. Champion was appointed a provisional firefighter on September 1, 1973, and a permanent firefighter on December 21, 1973. Existing vacancies will be filled upon receipt of a Civil Service List. During the year 1973, the following men retired from this department: Charles E. Snow retired on June 1, 1973, Acting Captain Roy N. Johansen on September 7, 1973, Acting Captain John R. Maitland on October 15, 1973, and Captain John J. Mattera on November 15, 1973.

ATLANTIC #1 HANDTUB

The Atlantic #1 handtub attended 8 (eight) musters during the year 1973. The musters were held in Newburyport, Pepperell, Gloucester, and Boston, Massachusetts; Richmond and Bath, Maine; Mystic, Connecticut; and Newmarket, New Hampshire.

The Atlantic won one first place, two second places, four third places and one fourth place. For the first time in five years the Atlantic lost the league championship. The Atlantic was also forced to turn over the Ephraim Taylor Trophy to the Gerry #5 of Marblehead in their annual meeting.

The officers and crew of the Atlantic wish to thank the citizens of Swampscott for their support.

RECOMMENDATIONS

I recommend that additional personnel be appointed to the Department.

I recommend the installation of additional hydrant protection in areas of the town where this protection is deficient.

I recommend the replacing of our two older pumpers with more modern apparatus.

I recommend the replacing of our present fire alarm system with a more modern system.

I wish to express my sincere appreciation to the Board of Selectmen, to the members of my department, to the members of the auxiliary fire department, to all town departments, and to all others who have cooperated with the fire department during the year 1973.

FOREST WARDEN

WILLIAM R. HYDE

During the year 1973 no permits for outdoor burning and/or open fires were issued by this department. This is in accordance with recent statutes which prohibit same in the interest of air pollution and ecology.

It is now permitted by law to conduct open burning during the periods of March 15, 1974 and April 15, 1974, and the periods from March 15, 1975 and April 15, 1975. This burning to consist of the open burning of products of open space land husbandry and management, including materials commonly referred to as brush, including vegetation such as tree branches, brush, cane, driftwood and other forestry debris, but excluding grass, hay or leaves. The permit for such burning is to be obtained from the Fire Department.

Such open burning shall be performed in accordance with the following requirements:

a) without causing a nuisance, b) with smoke minimizing starters if fire starters are necessary, c) between ten o'clock ante meridian, and four o'clock post meridian, d) on land proximate to the place of generation of such products, or at such other place as may be designated in the permit.

Violations shall be punishable by a fine of not more than fifty dollars per day, and each day's violation shall constitute a separate offense.

This statute will be enforced by this department anytime it is encountered.

I wish to thank the citizens of Swampscott for their past cooperation in this matter.

PUBLIC LIBRARY TRUSTEES

C. KERMIT DOWNS, Chairman

RUTH M. BARRY, Secretary

PAUL C. MILLER

The library began 1973 with a fresh, bright look from downstairs in the Addenda Gallery to the second floor. This was the result of paint, scrubbing, cleaned carpets and new carpets.

Board Chairman, Judge Henry Mayo, had little time to survey these improvements when he announced his resignation due to a recently implemented State law preventing seated judges from seeking or holding elected office. His resignation was regretfully accepted by the Board, and Ashley Rice graciously consented to fill the vacancy until Town elections, when Paul Miller was elected Trustee.

The newly formed Swampscott Arts Association took over functions of the Addenda Gallery and are continuing a full schedule of exhibitions and activities in the library auditorium.

Among the other local groups using the auditorium facilities were the Little League, Funambulists, Webelos, VITA, League of Women Voters, Conservation Commission and the Friends of the Library.

Forgiveness month gave citizens a "no fines, no questions asked," opportunity to return long-overdue books to Swampscott Public Library and 184 came in with a dividend of 20 delinquents for neighboring libraries.

Services were expanded with a Boston Museum of Fine Arts membership, permitting a borrower free admission to the Museum plus other member privileges. The Dr. Ralph E. Bicknell bequest has made possible an audio-visual program which included the purchase and installation of a high-fidelity phonograph in the Baldwin Room, and an additional cassette tape program combining equipment and tapes which will be ready for patrons' use in early 1974. Mrs. Barbara Wermuth continues to volunteer her good services to the selection and preparation of phonograph records.

Generous annual gifts were received from the Temple Israel Sisterhood and from the Upper Swampscott Improvement Association. The pair of globes in the Children's Room is a gift of family and friends in memory of Ferris John Bargoot, III. The Albert Lalime Memorial Fund provides for special purchases of books on rail-roading and model railroads. Other gifts were received from the Misses Bedard, Miss Olive Blake, Mrs. Helen Toochin and the Harold P. Willett Memorial Fund.

Memorial books were received in memory of Dr. Ralph E. Bicknell, Freeman Rines, Mrs. H. Morris Kelley, Mrs. Albert G. Wigglesworth and Christos Janakas, Walter H. Murphy, and Mrs. Mary Bondelevitch.

Over the past six years, our average daily circulation of printed materials has increased by 46 items per day. During 1973 five separate groups used the library's services to order their films, and three of these groups showed the films at the library. A total of 368 individual films were shown with 2754 people viewing the films. These figures demonstrate the interest of the townspeople in our film programs.

Our special thanks go to Sam Levy, who, for the past year and a half, has volunteered his time and services to run the film projector for our Wednesday afternoon film program.

As the year began, so it ended with another regretted resignation. Mrs. Jean Potter, who served as co-Librarian with Mrs. Naomi Feinburg and remained as Librarian when the former resigned on leaving the area, announced that she and Mr. Potter were going to live abroad for awhile before retiring to Maine.

The Friends of the Library and the Swampscott Arts Association jointly sponsored an afternoon tea to greet our new Librarian, Ms. Sally Duplaix, and bid farewell to Mr. and Mrs. Potter.

Our thanks to all the members of the staff including part-time help, high school pages and volunteers, and for the able assistance of Mr. Angelo Losano.

BOARD OF HEALTH

MYER BYER, O.D., Chairman

ROBERT H. BESSOM, M.D.

EDWARD L. CASHMAN, JR., M.D.

KENT F. MURPHY, C.H.O., Health Officer

The Board of Health received 144 Death certificates of Swampscott residents resulting in a crude death rate of 10.3 per 1,000. Last year we received 132. The average age at death was 76.7 years this year and the five year average is 70.3 years.

There was 92 Births of which 3 were premature. In this day of decreasing numbers it is interesting to note the births of the last 5 years. 1972 — 114; 1971 — 119; 1970 — 140; 1969 — 156.

Disease of the Heart continues to be the leading cause of death with 85, followed by diseases of the Respiratory System, 25; Cancer 18; Gastro Intestinal 9; Accidents 5; Central Nervous System 1; Genito Urinary 1; and 1 Immaturity. This is the first time in many years that Respiratory death were greater than Cancer.

Communicable Diseases reported this and preceding four years are as follows:

COMMUNICABLE DISEASES

	1969	1970	1971	1972	1973
C. Pox	41	58	26	168	45
G. Measles	10	2	1	4	17
Hepatitis Infections	4	4	2	2	1
Measles	0	0	0	0	11
Meningitis	0	2	0	2	0
Mumps	12	9	5	0	1
Salmonellosis	16	9	2	2	3
Scarlet Fever	2	9	2	0	8
Strep. Throat	24	41	50	122	8
Tuberculosis	2	0	2	1	2
W. Cough	0	0	0	0	1
Dysentary Bacillary	0	0	0	0	0

This is the first year we have had a case of Measles since 1966 in Swampscott. Every case was investigated by this department and the recommendation of the State Department of Public Health was that; the children either received the vaccine before 1965, or before age one. In either case children in these catagories should be revaccinated.

It is also interesting to note we had two cases of Tuberculosis reported, one as a result of an autopsy and the other just prior to the patients death. This disease is not yet eradicated. We also had our first case of Whooping Cough since 1964. Upon investigation it was revealed that the patient was not raised in the United States.

A Measles-Rubella program was conducted this year and included children in the Kindergarten to Grade IX inclusive who had not received the vaccine; those who

received the vaccine prior to age one, or those vaccinated prior to 1965. A total of 1,224 Measles and Rubella and 203 Measles inoculations were given by Drs. Bessom and Cashman, Board of Health Physicians and Sylvia Mansfield, Public Health Nurse, also Volunteer Nurses, Florence Bessom, Amy Burk, Dorothy Burns, Phyllis Connolly, Jean Dionne, Mary Laubner, Elaine Patrinos, as well as Carol Connolly and Janet Moore.

Parents of children in need of these vaccines may call the Board of Health office for an appointment to receive these inoculations.

Diphtheria Tetanus Immunizations were given in the Elementary Schools Grade VI and Grade XI of the Swampscott High School. Tuberculosis Skin Test (Tine) was given to 137 School Entersers, 55 Transfer students and 187 in Grade XI. No positive reactors were found. 129 School Personnel were Tine Tested, 9 reacted positive, all had negative X-Rays.

The Swampscott Board of Health Well Child Conference conducted at the First Church Congregational, Monument Avenue, Swampscott was very successful. The clinic is conducted by Mrs. Sylvia C. Mansfield, R.N., our Public Health Nurse. Dr. Albert A. Brown is the attending physician. The Volunteers are Mrs. Nelson Darling, Jr., Mrs. Robert McInerney and Mrs. Vincent O'Brien. Parents of pre-school children are encouraged to attend this free service which is held once a month.

The School Health Program was conducted at the Hillel Academy, 117 Pupils, Kindergarten thru Grade VIII inclusive and also conducted at St. John The Evangelist School, 302 pupils, from January to June, 1973, when the school closed permanently. Of the 302 pupils, 156 were Swampscott residents.

In our Dental Health Program, an inspection of the children, Kindergarten thru Grade VI inclusive, is made twice a year by Paul J. McNeil, D.D.S., Charles Lynch, D.M.D. and Clement Schoenbeck, D.M.D. These inspections are made, notices are then sent out to the parents of children with dental defects.

The Rabies Clinic was conducted for the 52nd consecutive year. 563 of the 900 licensed dogs were vaccinated against rabies by Dr. Arthur A. Barry, D.V.M., our Veterinarian. A total of 119 dog owners reported having their dogs vaccinated elsewhere.

There were 60 Animal bites this year, of which 53 were dogs, 3 cats and 1 white mouse. Arthur Barry, D.V.M., quarantined and released 38 dogs at the end of a ten day period.

Bacteria Tests and Sanitary Surveys were made of our beaches, all, with the exception of Fishermen's Beach, remain within allowable limits. The Water Pollution Control Plant hopefully will be ready for the 1974 bathing season and should return our shores to within acceptable standards.

Solid Waste continues to be an enormous problem, Rubbish and Garbage collections and Disposal Contracts were awarded for 3 years this year but we are not certain of the life of the DeMatteo Dump.

An incinerator is being built to the south of us, however, the projected costs are very high. In order to solve our problem, the Solid Waste Committee, created by Town Meeting 1971, upon recommendation of the Board of Health, has joined

with surrounding communities and hopefully within the near future will propose a regional solution to sensible costs to Town Meeting.

Hawthorne Brook reconstruction appears to have been resolved. It was necessary to require no further building in the Vinnin Square area until this brook flooding was alleviated. At present the developer's of Vinnin Square have an agreement with Board of Public Works to rebuild the Brook to the specification of the State Department of Public Works and their specifications. This satisfied the law and was acceptable to the Board of Health provided the Brook is completed before the buildings are occupied.

Much needed Sewerage and Drainage continues to be installed in unsewered areas by recommendation and request of this Board according to priority. We wish to again complement the Board of Public Works for their commitment to the program and their efficient use of funds for same.

A Recycling program for the collection of paper, magazines, and junk mail was conducted by the Board since July of this year. The program was initiated by a citizen's committee and voted by the Town Meeting. An Article has been entered in the Town Warrant by the Board of Health for continuance of the program and a full report will be given at that time, however, the present program consists of monthly collection on the first full week of the month by a private contractor and sale at the North Shore Recycled Fibers, Inc.

The Mosquito and Noxious weed program was conducted again this year. It proved to be a difficult year for both the control of mosquitos and the elimination of pollen laden weeds. In order to make the program more efficient we will add another sprayman to the program.

Many complaints were received relative to Mobile Ice-Cream trucks. To answer these complaints we have asked the Board of Selectmen to enter an Article to control them in the area of noise of bells, time allowed to stop on streets, etc.

We wish to thank the various Citizens, Committees, Boards and Departments for their assistance and cooperation through the year.

Mrs. Mary Bartow retired on February 14, 1973, after serving as Clerk to the Board of Election Commissioners since its inception in 1958. The Board wishes to extend to her their thanks for her many years of faithful service and their wish for many years of good health in her retirement.

HOUSING AUTHORITY

ALAN M. POPE — Chairman

SIDNEY STAMELL — Vice-Chairman

MALCOLM F. MacLEAN JR. — Treasurer

AUSTIN D. MOSCO — Assistant Treasurer

JOHN A. MASSEY — Member

LEONARD H. BATES, JR. — Executive Director and Secretary

The office of the Authority is located at 6 Duncan Terrace and is open daily from 9:00 A.M. to 5:00 P.M. every day except Saturday and Sunday. Regular and special meetings are held as often as necessary to carry out the business of the Authority. The Annual Election of officers is held on the first Tuesday in April.

The Authority was established in 1948 and is an independent corporation from the Town. Four members are elected by the voters of the Town and the fifth member is appointed by the Commissioner of the Department of Community Affairs for a five year term. The other four members are elected for a five year term with staggered expiration dates to guarantee a majority of experienced members to carry out the functions of the Authority. All vacancies are filled by vote of a joint meeting between the Authority and the Board of Selectmen until the next annual election to fill the unexpired term.

Major and minor improvements and maintenance programs are carried out on all three projects under the control of the Authority.

During this year the trend of homeowner construction of private residential swimming pools continued. The sewerage treatment plant was not yet put into operation, therefore, the public beaches were kept closed to bathers. When the treatment plant is operational the number of pools being built should decrease.

A considerable amount of time was spent this year in reviewing the plans for the condominium complexes and other projects to be constructed at Vinnin Square. The problems related to these projects are much more complex and extensive than could have been anticipated. As the various proposals were presented it became apparent that traffic was to be a major problem and that a plan had to be devised for safely dealing with the traffic coming to and passing through the area.

There has been some publicity about the development of the New Ocean House land, but there were not any inquiries made to the building department as to building or zoning requirements. It is expected that a proposal to rezone that land will be made at the next Annual Town Meeting.

As part of the project to compile all the by-laws of the Town, the Zoning By-laws were reprinted so as to include all changes adopted over the years since the last printing.

Several permits were issued this year for Town projects. In each instance the permit related to enlarging existing facilities, such as the water standpipe, Department of Public Works' garage, and Police Station. Although these facilities may have been under size even before the development of Vinnin Square, such facility enlargement will certainly be used to good advantage now that the Town is experiencing such rapid change.

Annually in these reports I have attempted to anticipate what trends, problems, and/or other activities related to the Building Department might be expected in the years to come. In the coming year permits for the Vinnin Square condominium complexes, I expect, will be issued, as well as for other projects in the area. The effect of these projects will not be felt for probably at least one year, the period of construction. After that population and traffic density will cause concern. I hope and advocate that no other land be rezoned for commercial usage, including multi-family living complexes, until Vinnin Square is completely developed and govern-

mental and social experience is gained. Such a moratorium I consider essential to preserve the character of the Town as we now know it.

During the year Appeal Board meetings were attended. Also inquiries and complaints from other Boards, Committees, and residents were investigated and appropriately acted upon.

Required local, State, and National reports were filed and the finances of the Department were accounted for.

As the Town's Fence Viewer and Smoke Inspector, all inquiries and complaints were investigated and appropriately acted upon.

BUILDING CODE ADVISORY COMMITTEE

MYER BYER, O.D. — Board of Health - Chairman

GEORGE J. BURKE — Registered Engineer and Contractor

JOHN F. MILO — Professional Engineer

JOHN F. BURKE — Building Inspector

MAURICE WEINER — Resident

EDWARD WEINSHANKER — Registered Architect

Several meetings of the committee were held this year to consider materials not included specifically for use in the Building Code. Also assemblies requesting permission of the committee prior to usage, were considered. An example of such an assembly were the display buildings used by a condominium developer at Vinnin Square. These display units were installed for the limited time span of one year, and were used to demonstrate what the completed units would look like, and also were used to serve as sales offices.

The decisions of the committee were appropriately filed.

TOWN COUNSEL

TIMOTHY J. DAVERN, Town Counsel

"The matter was referred to Town Counsel who will report his findings and make his recommendations to the Board at its next meeting." Hardly a week goes by that this phrase is not found in the Lynn Item, Swampscott Reporter, or Salem News. Frequently, it appears several times in the same edition.

The various Town Boards, Commissions, Elected and Appointed Officials, find it increasingly necessary (or at least advisable) to have legal expertise available when, or before, they render the many difficult and complex decisions which they are required to make on a daily basis.

The sophistication of the world in which we reside is reflected in the workings of our local government. The time and effort required just to sustain the vitality of our community increases at an alarming rate.

In the months of April and January, selected at random as being typical of the average months in the work year, there were only six days, exclusive of Saturdays and Sundays, when I was not called upon to at least consider or offer my legal opinion concerning some aspect of a municipal problem or situation.

In addition to the usual, and often novel problems faced by the Town in which my opinion was sought, I also expended a total of 254 hours in preparation, research, and actual litigation in the District Superior and Land Courts, as well as before the Appellate Tax Board and the Civil Service Commission, representing the interests of the Town.

The very great bulk of my work for the Town is done in the evenings and during the weekends, excepting, of course, those occasions when I am required to appear before the various tribunals mentioned above.

Without the wholehearted support and cooperation of the full-time employees of the Town, my task would be impossible, and without the appreciation and understanding of the Board of Selectmen, it would be untenable.

As always, in closing, thank you, Kay.

BY-LAW COMPILATION COMMITTEE

TIMOTHY J. DAVERN, ESQ. — Chairman

LT. JAMES E. HANLEY

ANTHONY CORSO

JOHN F. BURKE

THOMAS F. ROGERS, ESQ.

A difficult task, long postponed, has, I trust, successfully completed the initial mandate of the Town Meeting. A compilation of all our principal by-laws has been prepared and will be submitted to the Annual Town Meeting for approval.

Realistically, the future holds the key to success for what has already been accomplished and what can reasonably be expected. Unless an annual system of periodic house-keeping is maintained by the Town, we will all too soon again be faced with another monumental, and unnecessary task, just to re-do that which has now been done.

The Chairman would take this opportunity to publicly thank all the members of the Committee who have given so unselfishly of their time and effort in this project. To them belongs any credit that is forthcoming. The Chairman reserves to himself any criticism that may be merited.

BOARD OF APPEALS

T. PAUL CORCORAN — Chairman

WALTER T. MUDGE

Associate Members

VERA C. HARRINGTON — Clerk

The Board of Appeals has certainly had a very busy year with all the complexes involved in the Vinnin Square area.

At present, there are two cases pending in Superior Court. We have a petition for a Certiorari and will probably be heard before Town Meeting, and an additional case pending relating to the refusal of the Board to grant a variance.

Mrs. Mary Bartow, Clerk of the Board, retired in February of 1973 and we sincerely extend to her good health in her retirement and our appreciation for her fine service over the years.

The Board of Appeals held forty-seven (47) public hearings during 1973. Twenty-two (22) were for Variances, and twenty-five (25) were for Use Permits.

The Board extends its sincere appreciation to the various Boards and officials of the Town, especially Town Counsel, Timothy J. Davern, who has devoted many hours with the Board and invaluable legal service; Building Inspector John F. Burke, and Police Chief William J. Carlin for their assistance during the year.

PLANNING BOARD

GLENN W. BARTRAM — Chairman

JOHN F. MILO — Secretary

ALEXANDER B. WAY, JR.

LEON J. McENTEE

VIRGINIA E. EARLE

The Board was deeply saddened by the death of its senior member, Mr. Ralph L. Williams.

Mr. Williams had served on numerous town committees and responded willingly and enthusiastically on every request of the Town of Swampscott for over forty years.

For most of these years he also served as an elective member on the Planning Board — as Chairman of the Board, and last as Secretary, he initiated and was responsible for the acceptance of the first Zoning By-Laws in the Town of Swampscott.

His death will be keenly felt by the Planning Board and by the Town of Swampscott.

On October 19, 1973 a joint meeting was held by the Board of Selectmen and the Planning Board to appoint a successor.

The first and only name presented by the Planning Board was Mrs. Virginia E. Earle.

The joint meeting unanimously agreed to the appointment of the nominee for actions, advisory sessions with interested parties and committees.

The Planning Board held nineteen meetings during the year to cover approval of plans under Section 81P, Chapter 41 of the General Laws of the Commonwealth of Massachusetts routine actions, advisory sessions with interested parties and committees.

The Board also held two (2) Public Hearings on Articles presented at the annual town meeting and the special town meeting.

The Board and individual members of the Board met with other Town Boards, commissions, and committees on a number of occasions to assist in the interpretation of the Zoning By-Laws.

The Chairman of the Board reported on Articles 63, 65, 66, & 67 at the annual town meeting and also on Article #1 of the special town meeting.

LAND ACQUISITION

Cooperation with the School Building Needs Committee resulted in finally securing a Town Meeting vote to acquire the Chick Estate for conservation and recreation purposes. Town Meeting also approved the purchase of about eight acres of land to the rear of the Shaw Junior High on the Tedesco Golf Course for conservation purposes. The Conservation Commission has been handling negotiations with the owners and with state and federal funding agencies to accomplish these purchases. These two parcels are part of a long-range acquisition program to maintain open space around our most crowded schools.

RECYCLING

The Swampscott Committee on Recycling, led by Mary L. Powers of the Conservation Commission, succeeded, at the 1973 Town Meeting, in initiating the first recycling program in Swampscott. The one-year pilot project to collect and recycle

paper products is operating without a deficit. The Board of Health, initially opposed to the program, has now filed its own article for the Town Warrant to continue it.

CO-ORDINATION WITH OTHER TOWN BODIES

The Commission has attempted throughout the year to keep in touch with other town bodies with related interests. Representatives from the Commission have attended many meetings of the Traffic Study Committee, the Board of Health, the Board of Public Works and the Open Space Land Use Committee, with which it is co-sponsoring an article to acquire additional beach front for town use.

WETLANDS

The continuing effort to preserve and protect Swampscott's wetlands has taken most of our time and effort during the year. Again, for the second year, wetland zoning was defeated at Town Meeting, leaving the Wetlands Protection Act our only line of defense. To date, we have held three public hearings under this act. In each case, we have had to educate the petitioner on the necessity to file. All three hearings have been relative to alterations of Hawthorne Brook and its tributaries in connection with the commercial development at Vinnin Square. Two of the cases were of sufficient complexity and importance to justify intervention by the Commissioner of Natural Resources. The net result of these proceedings will be an improvement in pipe specifications and the disappearance of Dynamite Pond and Hawthorne Brook, our last remaining open stream.

Along with the Wetlands Protection Act cases, the Conservation Commission has been involved in repercussions from a number of old Hatch and Jones Act cases.. Answering complaints, inspecting sites, enforcing Orders of Conditions are now a normal part of the Commission's duties.

The year 1973 has been largely spent in an effort to educate the public, and ourselves, in the procedures of the Wetlands Protection Act, and to enforce compliance with the act. Its effectiveness in protecting our wetlands is yet to be demonstrated; therefore we are again proposing Wetlands Zoning, in an amended version, to Town Meeting.

ENVIRONMENTAL IMPACT STATEMENTS

Environmental Impact Assessments are now required on any public or private project requiring state licensing, and the Conservation Commission has been called upon by the Office of Environmental Affairs to comment on those submitted on behalf of Swampscott developers. The many inaccuracies which we, as well as other public and private groups, have pointed out have caused considerable delay in the licensing of these projects. The Conservation Commission is of the opinion that the submission of an Environmental Impact Statement along with site plans at an early stage of the local licensing procedures would be less costly for the developer and of greater benefit to the town, and is therefore submitting an article to that effect for the 1974 Town Meeting.

MEMBERSHIP

Due to other commitments, Edward P. Hannon submitted his resignation. He was replaced by Dr. Nathan Riser, Director of Edwards Marine Laboratory in Nahant. Our associate membership continues to be a great asset with the addition of two

new members: Charles Wilkinson, a student of marine science, and William Carpenter, a well-known tree expert.

MAINTENANCE

The care and maintenance of Conservation land led to many volunteer clean-ups, both at Palmer Pond and beach areas and at Muskrat Pond. Boy Scout Troup 59 from Stanley School must take great pride in the fine job accomplished. Cooperation from our Department of Public Works helped complete an excellent job. A trail system in the Harold King Forest continues to be planned, as well as signs for all Conservation areas.

RECREATION COMMITTEE

FRANCIS J. CASSIDY

PETER R. BEATRICE, JR.

RICHARD J. LYNCH

The year of 1973 saw the completion of the first full year of the Recreation Commission. It was a year of new programs, activities and responsibilities.

The Commission philosophy is to expand recreation to larger numbers of our citizens of all ages. The Commission instituted new programs that have reflected this philosophy and hope to expand on these for another year. These programs are: a girl's softball league, a junior boy's basketball league, a women's physical fitness program, which included a volleyball program, and a winter arts and crafts program. The Commission now directs the Saturday basketball program, formerly run by the YMCA. We also sponsor the Shaw Drop-in Program and during the summer, run a program for mentally or physically handicapped children. We instituted a tennis permit system which includes tennis rules and regulations with night tennis at Phillips Park courts.

New Playground equipment was installed at Jackson and Abbott Parks by the Dept. of Public Works. More work will be done this summer to further improve these areas so that younger children will have suitable playground equipment to enjoy.

The Commission is well aware that all these programs and increased activities cost money and must be paid for by the townspeople. Therefore, a small fee has been charged to register for some of our programs and this policy will be continued for some of our programs scheduled for 1974-1975. The Commission has already returned more than \$2,500.00 to the town's general fund and hopes to increase that figure before the end of current budget in June 30, 1974.

We would like to thank the Board of Public Works and the Public Works Administration and personnel for the cooperation and help they have given us over the past year.

The School department receives our thanks for the use of their facilities and personnel needed to carry out many of our programs.

To better serve the community, the Commission asks for your suggestions, help and support.

PERSONNEL BOARD

GLORIA WEBSTER

MARGARET CAMERON, Clerk

In accordance with Section 3(f) of the Personnel By-laws, the Personnel Board herewith submits its fourteenth annual report to the Board of Selectmen and to the citizens of the Town of Swampscott.

During the past year the Personnel Board met with all departments, Boards, and individuals who were interested in discussing job classifications, wage scales, promotions, and any other matters which come under the jurisdiction of the Personnel Board.

As a result of these meetings, and after careful research, documentation, and consideration, the Personnel Board will sponsor several articles in the warrant for the April, 1974 Town Meeting.

The Personnel Board wishes to thank the Board of Selectmen, Finance Committee, Bargaining Agent, Thomas H. Driscoll, Town Counsel, Timothy J. Davern, Town Accountant, Keith A. Callahan, and the many other individuals and Boards for their assistance and cooperation throughout the year.

CLEMENT KENNEDY

The Trustees submit their 23rd annual report.

Three scholarships, totalling \$1200., were awarded this year to the following:

\$500 — Patricia Szczechowicz, North Shore Community College

400 — Pamela C. White, Boston University

300 — Gail A. Webster, Lowell State College

To date, 41 Swampscott students have received scholarships with a grand total of \$13,900.

Due to the large number of applicants, it was necessary for the Trustees to hold two meetings at the Administration Building.

It is a pleasure, and with a sense of relief, to report that the Internal Revenue Service has finally reclassified the Fund back to what it was originally. Notice from

them dated September 4, 1973, stated in part "we now have classified you as an organization that is not a private foundation as defined in section 509(a) of the Internal Revenue Code, because you are an organization described in the Code section, 509(a) (3)".

This is a perpetual Memorial which was approved by the Town Meeting in 1950, under the provisions of Chapter 119 of the Acts of 1949. Contributions to the Fund are welcomed and are deductible by the donors in computing their taxable net income.

The Balance in the Fund as of December 31, 1973 follows:

Charlestown Savings Bank	\$ 1,896.72
North Shore Bank and Banking Co.	7,035.15
Salem Five Cents Savings Bank	15,933.78

COMMISSIONERS OF TRUST FUNDS

ROBERT V. GRIMES — Chairman
HAROLD R. AUSTIN FLOYD W. WEBSTER

The commissioners of trust funds are responsible for managing any assets given over to the custody of the Town of Swampscott which intended to be for the benefit of all the inhabitants of the town.

The commissioners were active during the year in the supervision of the funds, all of which are kept in custody by the treasurer of the town. In addition, the commissioners reviewed the disposition of such funds.

The commissioners request that it be brought to their attention whenever funds are bequeathed or otherwise given to the town by anyone having knowledge of such funds.

The commissioners extend their sincere appreciation to the various boards and officials of the town for their helpful cooperation during the year.

AD HOC SEWAGE TREATMENT AND DISPOSAL FACILITIES BUILDING COMMITTEE

ROBERT W. SNOW — Chairman

VEEDER C. NELLIS — Secretary

PHILIP A. BRINE, JR.

JOHN P. THOMPSON

MARVIN J. BAKER

The new Sewage Treatment Plant facility is approximately 97.5% complete. Except for circumstances over which the Ad Hoc Committee has no control; namely, still unfinished litigation involving three (3) major sub-contractors and the general contractor, Morris & Son Construction Corp., of Chelmsford, Massachusetts, the plant would be in full operation at the time of the writing of this report in January, 1974, and possibly this report might have been a final one. Coping with this situation has sorely taxed the time and energies of the Ad Hoc Committee but we are still hopeful that negotiations now known to be going on between the litigants will result in a settlement of their disputes outside the courtrooms and the small amount of work required to make the plant operable in the spring of 1974 will be performed.

In the absence of such a settlement within a reasonably short period of time the Ad Hoc Committee will take an appropriate course of action to assure that the plant will be in full operation during the spring, 1974.

This committee has received a number of gifts during the year among the larger being complete records of all activities of the Park Department during the regime of the late Fred Burk and contributed by him. Similar records were received from the family of the former tree warden, the late Everett Mudge. Also among the larger gifts were photos and other material from the estate of the late Edmund Young and a similar collection from Miss Evelyn Fryers. Our appreciation is expressed for a number of smaller gifts of historic material throughout the year.

The printing of our second book "The Beginning of a Town", in 1972 enjoyed such a large sale that additional funds were appropriated by the 1973 Town meeting for reprinting of this volume. We can now report that sales of the second edition have been heavy, so that we have already returned about \$700. to the Town Treasurer against a printing cost of about \$500. In addition sales continue at a moderate rate.

Our third book "Swampscott in the 17th Century" by Richard B. Johnson, has been printed and is now waiting for cover design.

It is our intention to ask for funds at the 1974 town meeting to put out a volume of old Swampscott Photographs, there being a demand for such a book. The fact that both previous books have yielded a profit to the Town would make such a project worthwhile, and it is worth noting that never before has the Town had the material together with the interested people to accomplish such a task.

GREATER LYNN COMMUNITY SERVICE CENTER (Welfare Board) ADVISORY BOARD DESIGNEE

JOHN F. O'HARE

The past year, with our regular monthly meeting held in Lynn, continued to be interesting and informative.

Some recent changes in procedure resulted in a change of old-age disbursement — now with the Social Security Office — and a phasing out of the Surplus Food Program. The former having taken effect as of January, 1974, and the latter to be effective as of July, 1974.

Swampscott added another representative to this board in 1973.

Mr. Thomas Spirito and his staff continue to maintain an effective office in Lynn, serving the adjacent communities.

For the past two summers, teen-age boys and girls from low income families have been employed by the Neighborhood Youth Corps based out of the Lynn Economic Opportunity, Inc. (LEO) I sincerely hope that this summer work program continues, both for the young people, and their assistance to the town.

INSPECTOR OF WEIGHTS AND MEASURES

JOHN F. O'HARE

This office continued to function on a full-time part-time plan, as usual, serving the Town regarding consumer affairs.

The total fees collected were \$509.90.

The usual inspections and testing were performed periodically. There were some closings of retail establishments that had weighing devices, but nothing of a great nature.

This office worked in cooperation with the State Department of Consumer Affairs in supplying information regarding wholesale and retail fuel oil suppliers. The City of Lynn continues to service our #2 fuel oil dealers.

I again encourage consumers to register complaints involving consumer services, and especially fuel oil problems, to this office or to the Selectmen's Office. I assure you that they will be followed up. In this period of time of high prices and shortages in many commodities, every citizen should be thoughtful of an age-old expression: "Caveat Emptor" — meaning "Let the buyer beware".

It is not my point to intimate that business people are dishonest, but mistakes are made and it is up to the consumer to be alert and attentive.

Please feel free to utilize the services of this office.

DEPARTMENT OF CIVIL DEFENSE

FORREST E. MASON, JR. — Director

The Swampscott Civil Defense Organization continues its training program for the Auxiliary Fire, Police, Rescue Squad and Communication Department so that in time of emergency these units will be prepared to help our regular town departments.

The men who train for these emergencies are all volunteers and they deserve recognition one and all.

As I have stated so many times, the home is the basic unit of the community and the basic unit on which protection of life and property must be built. Swampscott Civil Defense looks to you the people of our town, to take an active role in protecting your home. No one else can do that job for you.

A few steps for family civil defense are as follows:

1. Have at least one member of your family take a Red Cross First Aid Course. This should be a must.
2. Have at least a week's supply of canned goods and juices for each member of your family.
3. Have a "Planned Action" with your family so that each member will know what to do in case of any natural disaster.
4. Make sure your portable radio and flashlights are in good working condition.

Long man hours have been spent in maintaining our equipment, attending drills, and redecorating the interior of our headquarters. I am deeply grateful for all that has been done by these volunteers.

I am also grateful to the Board of Selectmen, to the Chief of Police, the Chief of the Fire Department, the Department of Public Works and all other town departments who have done so much to help Swampscott Civil Defense.

INSPECTOR OF WIRES

DANIEL C. CAHILL

I herewith submit the following report for the year ending December 31, 1973. There were 218 permits issued and \$655.25 collected. In these permits were 1 issued for high rise apartments, 17 permits for new houses, and the remainder were issued for repairs and upgrading of present wiring.

The office hours of the department are 4:45 to 5:30 daily, Monday thru Friday. At this time permits are issued, many questions answered and appointments for inspections made.

Investigations of damaged wiring were made after several house fires. Inspections were made after electricians had replaced damaged wiring and before it was put into service.

Several re-inspections were made when work or materials did not meet the requirements of the Massachusetts State Code or the By-Laws of the Town of Swampscott.

DOG OFFICER

RALPH FULLER, Dog Officer

Dogs licensed 1972	1,065
Dogs licensed 1973	1,265
Auto Accidents	48
Injured and sick dogs to hospital	87
Dogs lost by Swampscott residents	95
Dogs lost by out of town residents	51
Dog problem complaints	365
Out of town assistance	12

Leash law hours are 7:00 A.M. to 10:00 P.M. all dogs MUST be on a leash and 10:00 to 7:00 A.M. all dogs must be with owner or person with dog under control.

I would like to thank all departments for their cooperation this past year.

KENNEL STUDY COMMITTEE

RALPH FULLER, Chairman

DR. ARTHUR E. LAGER

JAMES S. FENELON

The Kennel Study Committee would like to report that at our meetings we have determined how large a kennel should be in the Town of Swampscott. It should

be at least 30x60 ft. and should consist of the following items.

- | | |
|-------------------|-----------------------|
| 1. Office | 5. Air Condition |
| 2. Treatment Room | 6. Hot and cold water |
| 3. One rest room | 7. Heat |
| 4. Bath tub | 8. Sinks and drains |

The location is not decided as yet, but several locations have been viewed.

The Kennel Study Committee would like to mention at this time that the Town of Swampscott should have a kennel built as soon as possible to pick up the stray dogs that are either abandoned or forgotten by their owners and are a menace to the public.

HARBORMASTER

CHARLES H. BICKFORD

I wish to express sincere appreciation for the excellent cooperation of the public in using our harbor facilities. As a result of safety measures no accidents were reported in 1973.

I wish to thank all of the Town Department Heads for their fine cooperation throughout the season.

Excellent maintenance on the Harbormaster boat by the Public Works Dept. mechanics has the craft in very good shape.

Government officials have assured the public that the energy crisis will not effect motor boating. Fuel prices will be higher and this may bring out more sails.

I wish to thank Louis "Lucky" Williams, my assistant, for his cooperation and aid throughout 1973.

I am looking forward to a safe and sane 1974 boating season, with new programs expected.

DEPARTMENT OF VETERANS SERVICES

CHARLES W. DWYER — Director

Despite the increasing age of World War 2 Veterans, representing the bulk of the veteran population, the case load during 1973 did not vary significantly. Increases in Social Security and pension payments on the Federal level helped offset the burden the Town shares with the State.

Funds expended for unemployment and strike benefits have been negligible but may be a factor as we approach 1974. However, the department is well within its budget at this point. A cost of living increase of 3.4% has been allowed with a

larger percentage rise in shelter and fuel still under consideration. As an offset, liens on tort and industrial accident cases have been settled and should bring \$3,400. to the Town, half of which must be returned to the Commonwealth.

A supplemental Social Security Income is being made available, January first, to those who qualify to be administered by the Social Security Administration for HEW to bring the disabled and aged to a higher security level.

This office is now available to register all males reaching age 18 for the Selective Service.

WORKMEN'S COMPENSATION

WARREN A. JOHNSON — Agent

Since my appointment by the Board of Selectmen on September 6, 1973, I have enjoyed excellent cooperation from all town boards and employees. I thank them for their valuable help.

During the calendar year of 1973, there were forty-six (46) claims reported on Workmen's Compensation, nine (9) of which involved weekly disability. Payments on these claims amounted to approximately \$12,500.00. This represents both an increase in claims and monies expended.

There was a sizeable increase in both the number of claims and monies expended relating to medical bills for fire and police claims. The total amount expended was about \$5000.00.

THE OPEN SPACE LAND USE STUDY COMMITTEE

LAWRENCE R. ALEXANDER

MARY L. POWERS

VIRGINIA E. EARLE

ALEXANDER B. WAY, JR.

DAVID FRIED

The Open Space Land Use Committee was convened by Town Moderator Richard Johnson on June 13, 1973, a scant seven months prior to the January 3rd deadline for filing articles for the April, 1974 Town Meeting. Accordingly, top priority was assigned by Chairman Hans Bleiker to a study of the New Ocean House property whose owner, Dr. George Rohrbaugh, had indicated he was planning to develop the site.

Meetings were held throughout the summer culminating in a meeting on August 16, with Dr. Rohrbaugh, his attorney, and his planner. An earnest attempt was made to reconcile the basic concern of the committee to preserve the beachfront

and parking facilities, and Dr. Rohrbaugh's interest in developing the property to its highest potential. At this writing, no definitive plan has been submitted and negotiations continue.

During the fall, meetings were held with the Conservation and Recreation Commissions to explore common interests in open space. As a result, agreement was reached to co-sponsor articles which would insure access to the beaches for all townspeople.

Meetings were also held with Town Counsel Timothy Davern relative to the status of litigation at Whales Beach and with Metropolitan Area Planning Council member George Thomson relative to problems in the Vinnin Square area.

A review of the Master Plan was undertaken and a study of Cluster Zoning and Planned Unit Development was instituted with projected visits to communities where these zoning ordinances have been introduced.

Also under consideration are a series of "mini-parks" on town-owned land throughout the town, possible creation of a new zoning area with a minimum lot size of one acre, and the establishment of an Architectural and Landscape Review Board.

The committee is deeply committed to the prevention of any substantial increase in density in the town and to the preservation of as much open space as possible consistent with sound planning.

In September, the committee lost the valuable leadership of Chairman Bleiker, who moved to Colorado. David Fried was appointed to fill the vacancy, and Virginia Earle and Clarice Neumann were elected "co-chairpersons". Named as associate members were Lenore Brooks and Garry Baker.

NORTH SHORE REGIONAL VOCATIONAL SCHOOL DISTRICT COMMITTEE

J. DAVID McKINNEY — Chairman

JOSEPH P. HOWARD, JR.

CARLA HERWITZ

After a full year of operation with a very active Committee and numerous Sub-Committees, the District has accomplished the following:

Opened offices and hired full-time personnel to staff same.

Established financial procedures with member communities.

Initiated information gathering by seminars, surveys, etc., to determine current and future vocational needs of the region in order to aid in meeting the needs of industry and our young people.

School visitations by Committee members will be a continuing process. Evaluation of other plants, procedures, pupils, and programs will allow us to profit by the experience of others.

After careful screening of candidates, the Committee hired Michael J. Anthony, formerly Director of a regional vocational school in Watertown, New York. In addition to extensive vocational education administrative and teaching experience, he has been directly responsible for establishing several regional vocational school districts. This involved construction of the appropriate plant, preparation of the educational profile of the district, site selection, design of the educational plant in detail, hiring staff, and curricula development — all prime requisites necessary for the director of the North Shore program. Mr. Anthony assumed his duties in September, 1973.

Active sub-committees have considered numerous architectural firms, sites, and curriculum possibilities. The Committee has acted on several of these items:

- a. the firm of Alderman and MacNeish (West Springfield) has been engaged to design the project;
- b. the following subjects have been approved for inclusion in the new Regional Vocational High School:
 - Machine Accounting
 - Machine Technology
 - Welding/Metal Fabrication
 - Auto Body Repair
 - Diesel Machine Mechanics
 - Commercial Foods
 - Textile Design and Fabrication
 - Cosmetology
 - Child Care Services
 - Health Services (Nurse Aide/Orderly)
 - Building Construction Technology
 - Building Maintenance Occupations
 - Plumbing, Heating and Air Conditioning
 - Industrial Electricity
 - Industrial Electronics
 - Resort Service Occupations
 - Automotive Mechanics

A target date of September, 1976 has been set for the opening of a school, but, in the meantime, starting in September, 1974, morning and afternoon classes will be offered in temporary facilities, with academic and other training being received at the home schools.

The Curriculum Needs Sub-Committee, after surveying school departments, students, vocational school administrators, teachers, guidance councilors, national and local labor representatives, and State education departments representatives recommended the following to the 16 member Committee, for interim vocational programs. They include:

- Auto Body Repair
- Auto Mechanics
- Carpentry
- Drafting

- Nurses' Aide/Orderly
- Cosmetology
- Textile Fabrication
- Painting/Decorating

Our District is different from other districts in that we are so close to building a school after only a year of operation, in our method of allocating costs, and in our system of weighted voting power. We also differ in that we are determined that those students who desire vocational education shall not be lost in the period between the formation of the District and the opening of our school. To this end we intend to initiate interim vocational classes in September, 1974.

The accomplishments of the Committee reflect the devotion and determination of all its members. I feel honored to be a part of this exceptional group and I look forward to serving our District and our Town for the next 3 years.

REGIONAL REFUSE DISPOSAL STUDY COMMITTEE

PAUL A. POLISSON — Chairman

MELVIN J. WEINER

KENT F. MURPHY, C.H.O. — Secretary

The Committee was authorized under Chapter 40 of the General Laws, Section 44A and 44B and created by Article 43 of the 1971 Town Meeting. As last years report to Town Meeting indicated after many long hours of negotiations with the General Electric Co., and private groups willing to construct and operate a regional refuse incinerator, sell steam and allow the communities a reasonable share of the profits for the sale of steam, the General Electric Co. announced it could not wait for the Communities to build a plant because of air pollution demands. They announced the signing of a letter of intent with Mr. M. DeMatteo, et al, for the purchase of steam at his proposed plant, thus putting the North Shore Regional Refuse Disposal Planning Board in a state of limbo as we had no site and no customer for our steam to reduce the cost of incineration. We still had the problem and the rubbish and were a potential market.

A Solid Waste Group was operating in Beverly and consisted of the Northern Essex Municipalities. The two groups merged forming the South Essex Solid Waste Council consisting of approximately 15 communities — Lynn, Nahant, Salem, Peabody, Middleton, Beverly, Marblehead, Danvers, Manchester, Essex, Gloucester, Rockport and Swampscott. The basic difference was that at all times the decision makers of the political bodies of the communities were informed and involved. The Chairman of the Council is Honorable Jean Levesque, Mayor of Salem, and the Executive Secretary is Philip Dunkelbarger, no salaries are paid Committee Members.

After numerous meetings it was unanimously voted to appropriate \$10,000.00 proportionately divided by community population. Our share was \$420.00.

The money was used to hire the consulting engineering firm of C. E. Maguire, Inc. to prepare a comprehensive report of refuse tonnage, available sites and evaluate proposals from reliable firms to construct and operate a refuse disposal plant at the most reasonable cost per ton.

Thirteen firms submitted proposals to the Council and after intensive reviews five were selected to be qualified for consideration in further interviews. The firms submitted detailed proposals for the construction and operation of a refuse plant including returns for recycling paper, ferrous and non-ferrous metals, bottles, other materials and some producing by-products from their incineration process.

At present the Council and C. E. Maguire, Inc. have recommended a firm and are now presenting the finalist's proposal to several Host Communities who are very much interested in having the plant in their community.

The Council will by May 15, 1974, attempt to have reports of acceptance or rejection of Host Committees terms, site evaluations and contracts proposals for Community Members of the Council.

The Council is also attempting to keep abreast, and work with Marblehead if their consulting engineers offer a joint venture.

A more complete report will be present at Town Meeting.

MUNICIPAL ELECTRIC STUDY COMMITTEE

LEON B. STAVIS — Chairman

DOUGLAS ALLEN

JANE LYNESS

JAMES DILLON

JOEL REYNOLDS

RALPH DUNN

LOUIS RUDOLPH

Your Municipal Electric Plant Study Committee became aware, in late Fall, 1972, that unless a change were made in a State Statute that had existed since 1929 — that no further plans could be consummated unless this law was changed.

The Committee thereupon filed a bill with the Legislature which was heard by the Joint House and Senate Committee on Government Regulations. The hearing was held on Feb. 6th, 1973 and was very well attended. Many legislators, managers of other municipally owned electric plants and privately interested individuals spoke in favor of the bill and only one speaker opposed the bill. He was the lobbyist for the N.E. Gas and Electric Asso.

The purpose of the bill was to remove the "right of choice" from the utility and return it to the people. As the law is presently written no city or town could become municipally owned unless the utility were agreeable to selling — which they obviously are not. It is a Statewide bill and if approved any city or town in the Commonwealth could purchase their electric utility if they so desired.

The Chairman of the Joint Committee, Rep. Robert Ambler, advised that it would be difficult to get our bill passed in the 1973 session because another bill, also affecting municipally owned electric plants, had been proposed for three years and that bill took precedence over ours. He therefore recommended the bill to a Study Committee effectively killing it for the 1973 session. Meetings were held with

Kenneth Robins, legal counsel, to the Joint Committee and the attitude of the Committee now is for favorable action. We therefore refiled the bill, now sponsored by Senator Walter Boverini, with the approval of the Board of Selectmen and now await the hearing which will be held early in March.

If there was need for a municipally owned electric plant in the Summer of 1972 — when this was first proposed — that need today is far greater. Electric rates are on a runaway course and are going to increase with each bi-monthly billing. The only effective means for remedying this situation is our proposed municipally owned electric distribution plant. We hope that when the time comes, that Town Meeting will vote favorably on this proposal.

Miss Emily Devitt has compiled a list of Revolutionary veterans who lived in that part of Lynn, which is now Swampscott, and Mr. Harvey Michaels is preparing an independent research program in which interested high school students will write biographical sketches.

SWAMPSCOTT SCHOOL BUILDING NEEDS COMMITTEE

INTERIM REPORT — NOVEMBER, 1973

In the 1972-1973 study and report to the Town Meeting, the Swampscott School Building Needs Committee inventoried and analyzed existing facilities, identified physical needs and made recommendations for meeting them. Attention was focussed on a policy of expanding existing facilities on existing school sites. Emphasis was placed on maintaining the Hadley School and expanding the Stanley School

to meet any future elementary needs and enlarging the Shaw School to house secondary enrollment and curriculum growth.

The report strongly recommended a stable land use policy to preserve the town's character by expanding public open space and restricting the density of private development. Such a policy obviously would serve to control those future needs related to potential population and enrollment growth.

The Committee specifically recommended 3 open space and recreation land takings to initiate the expansion of the town's supply of permanently open land consistent with the recommended land use policy. The Town Meeting accepted the 2 most critical open space recommendations.

The Committee also advised the Town Meeting that it was asking for a long-term commitment to the recommended policy of expansion of existing school facilities on existing sites when and as needed. Such a policy implies a reduction in the **total** supply of public open space since school land and play area will be lost. In the Committee's judgement, the jurisdiction over public open space (school, park, conservation, etc.) is relatively unimportant. Children and adults of the community can and should enjoy all of it regardless of the official responsibility. The important considerations are its protection and expansion for the health and enjoyment of the public. The Committee could not recommend reducing the town's total open space and recreation area by expanding school facilities **without** parallel recommendations for open land expansion elsewhere. The town is relatively densely settled. Permanent open space is basic to its future. The Town Meeting apparently concurred with the recommended land use policy and with the separate school facilities expansion policy. The specific steps taken were the first in over a decade.

The Town Meeting unanimously voted to continue the Committee. With the separate open space and facilities expansion policy issues resolved, it became the Committee's responsibility to focus its attention on specific short-term school facilities needs. With near-term elementary space problems solved by the St. John's arrangement, study attention has been directed at specific secondary level problems since last spring.

The 1973 report recommended as a "permanent solution," expansion of the Shaw facility as a 4 year high school and the use of the present High School for grades 7 and 8 based on projections indicating "that secondary level expansion may be required in the period between 1975 and 1980". It was further recommended that both the "Shaw expansion plan" and the "Campus High School plans of the '50's" should be re-examined for general applicability. In addition, it was noted that "the Campus approach could provide the required units with program segments in separate self-contained buildings". The Phase III report stated: "the **first** task is to evaluate existing plans for future utility. A combination of the earlier proposals could provide a sound expansion program to cover the 30 to 40 percent building area increase which may be required."

The Committee addressed the "first task" during the summer and fall and developed the initial conclusions listed below following discussion with and investigation by the High School Principal:

1. An expansion approach, based on housing a discrete curriculum segment (or segments) in a separate building or wing on the Shaw site, is viable and should be explored promptly and in detail.

2. The approach will provide the town and the School Department with two alternatives — perhaps in sequence:
 - A. Elimination of present use of space at both the Junior High and High Schools for a curriculum segment (or segments), **EG**: science or science and math, while continuing present uses of the two buildings.
 - B. Conversion of the Shaw Facility to 4 year high school use.
3. Both alternatives should include examination of related needs which might result from the expansion of the Shaw facility, **EG**: cafeteria, gym, library, etc.
4. The School Committee, Superintendent and the Principals of the two schools should be requested to examine and evaluate Junior High and High School needs.

The School Building Needs Committee and the School Committee discussed the above conclusions in some detail and reviewed the issue of accreditation. The School Department agreed to assess secondary needs. The School Building Needs Committee began a review of all prior recommendations including those in the town's 1971 Master Plan and in recent accreditation reports.

Both committees agreed that the reduction of the school system's accreditation period from 1975 to 1974 was incomprehensible in view of the substantive progress made during 1973, **EG**:

- A. Agreement was reached on the general secondary facilities expansion approach recommended in the 1972-1973 study and report after discussion and investigation of the policy issues involved.
- B. Specific analysis of the details of secondary needs and available expansion alternatives was begun by both committees in a cooperative effort.

Since both steps represented the first positive action in over a decade, the move of the accreditation committee appeared to be unrelated to current developments and possibly designed to promote a solution inconsistent with the expansion approach proposed to the Town Meeting. The impact of the action seemed to be divisive and negative.

The School Building Needs Committee concluded that the adopted course would provide satisfactory solutions to secondary level needs problems and, thereby, deal with the accreditation issue. It was determined that work would continue on the program outlined in this and previous reports. The working relationship with the School Committee and Administration offered broader perspectives and cooperative technical assistance in the development of a specific program.

CONTRIBUTORY RETIREMENT BOARD

ALAN POPE — Chairman

GERARD CARON — Elected Member

KEITH CALLAHAN — Secretary-Ex-Officio Member

The Board is pleased to report on the highlights of its activities for 1973.

The Board administered the payments of 97 contributory retirement allowances

totaling \$362,436.57 and 37 non-contributory retirement allowances totaling \$177,092.10.

The book value of the invested funds as of December 31, 1973 was \$1,534,955.08.

The source of all of these funds were town employees' contributions.

The Board purchased \$227,000.00 worth of long term utility, telephone and government bonds. These were purchased at discounts because of their low yield. The cost was \$184,828.25. When held to maturity these bonds will yield in excess of 8%.

The town appropriated \$326,198.00 for the pension fund.

Charges against the pension fund amounted to \$371,325.84 or \$45,127.84 more than was appropriated.

There was \$22,238.94 in excess earnings on investments after applying interest on all employee contributions as required.

This excess was transferred to the pension fund and will be used to reduce the amount that the town is required to appropriate for pensions.

There were 13 applications for retirement processed and granted during 1973.

The following retired:

Firemen: Charles Snow, Jr., John Maitland, John Mattera, Walter M. Champion, Roy Johansen

Public Works: Harold George, Samson Smith

School: Emily Hutchinson, Etta Frary, Frank Coletti, Isabelle Chadwell

Elections: Mary Bartow

Library: Jean Potter

The figures above do not reflect the allowance paid to Roy Johansen. This allowance was paid out of the Fire Department budget.

A complete list of the General Ledger balances as of December 31, 1973 is included in the Town Accountant's Report.

Bargaining Agent — Labor Consultant

ATTORNEY THOMAS H. DRISCOLL

Collective bargaining agreements for 1973 were funded by action of the Town Meeting. The contracts expire June 30, 1974, in accordance with the new fiscal year for municipalities. The 1973 contracts with all of the unions representing town employees provided for a 3.4% pay raise. This was the percentage of increase in the National Consumers Cost Index from December 31, 1971, to December 31, 1972. The 1973 contracts were for 18 months, or from January 1, 1973, to June 30, 1974.

Negotiations for 1974 contracts began in October of 1973. Agreements were developed by March, 1974. Long, involved bargaining sessions between union negotiating committees and the Selectmen and Town Bargaining Agent resulted in adoption of the National Consumers Cost of Living Index increase from December, 1972 to December, 1973, as the pay raise factor. This percentage of increase has been used in Swampscott for the past three years and is the basis of a Personnel Board by-law that affects town employees who are not in any collective bargaining unit.

The unions involved in collective bargaining for Town of Swampscott employees are: Local 1459, International Association of Fire Fighters, Local 1387 of the International Brotherhood of Police, State Council 41, Local 1294, American Federation of State, County and Municipal Employees for Public Works' employees and Local 1576 of the Service Employees International Union for library employees.

The 1974 contracts will run from July 1, 1974 to June 30, 1975. They have no retroactive provisions and take effect on July 1, the first day of the new fiscal year.

All public employment collective bargaining executed on or after July 1, 1974, will be subject to a new public collective bargaining law in Massachusetts.

The new law, Chapter 1078 of the Acts of 1973, takes effect July 1, 1974. This new law gives state and county employees rights to bargain with respect to wages and hours.

The new law gives much broader rights to town and municipal employees. The new law provides for collective bargaining in matters heretofore covered by statutes, bylaws regulations and civil service procedures.

The new law provides for a collective bargaining agreement to supersede other statutes, rules, by-laws or regulations whenever there is a conflict. This provision reverses the present law. The new law also provides for compulsory arbitration in a contract impasse involving municipal fire fighters or police officers.

The arbitration is based on the "last and best" offer from the town and from the union. The board of arbitration must accept one of the statements and the decision is binding on the parties and on the appropriate legislative body.

It is evident that future collective bargaining will be even more serious and involved for the town.

The collective bargaining negotiations for 1974 have been carried out in a serious professional manner. Union representatives are knowledgeable and tenacious.

The Board of Selectmen have spent many long nights and afternoons in prolonged labor management encounters.

Chairman Douglas F. Allen and Selectmen Robert E. Donelan and Arthur J. Palleschi have displayed their professional training, personal patience and dedicated concern for the best interest of the entire town.

Police Chief William Carlin, Fire Chief William Hyde, Superintendent Donald Huston, have been a resource of technical knowledge during negotiations.

The Library Trustees, Board of Public Works, Personnel Board and Finance Committee have given generous cooperation.

The labor management relationship in the Town of Swampscott is harmonious and mature. Collective bargaining in public employment is a relatively new experience. It has progressed much faster than it did in the private sector.

It is important that the Town has been provided with excellent services without pressures from outside authorities.
